If provided, the current and valid permit numbers for the manufacturing facility, issued by the governing human health or food safety regulatory authority, are listed above. These permits document and confirm that the facility meets the authority's human health or food safety sanitation requirements as of the date of issuance. These permits are maintained by the manufacturer; the permit numbers are included for informational purposes only. As an independent testing laboratory, AccuScience Laboratories is not the custodian or authority of these records, does not verify their authenticity, and assumes no liability for their status or the facility's ongoing compliance.

**Regulatory Compliance Framework & Declaration(s):**

This **Certificate of Analysis (COA)** provides analytical test results for the identified batch according to the requirements of Florida Statute Section **581.217** and **Rule 5K-4.034**, governed by the Florida Department of Agriculture and Consumer Services (FDACS). The **Pass/Fail** designations indicated within the contaminant screening sections of this report—including heavy metals, mycotoxins, pesticides, residual solvents, and pathogens—are based strictly on the limits established by **Rule 5K-4.034**.

This report shall not be reproduced except in its entirety without the written approval of AccuScience Laboratories. The results of this report relate only to the material or product analyzed. Test results are confidential unless explicitly waived otherwise. This laboratory is accredited in accordance with International Standard ISO/IEC 17025.
